Italian: Basic

(2-month immersion in Italy)

PERSONAL SUMMARY

Recent Design graduate and a student of the Google UX Design Certificate, leveraging +9 years of experience in digital analysis and communication to transition into UX/UI. With international experience and advanced English, I apply maturity and analytical thinking to develop user-centered digital solutions. Seeking a **trainee or junior role** to apply my skills in wireframing, prototyping, and UX research.

PROFESSIONAL EXPERIENCE

Bilingual Content & Ads Moderator (Freelance)

Projects for Google & Meta (via Appen & Lionbridge) | Feb 2016 – Present

- **Analyzed** over 10,000 ads and landing pages, applying usability guidelines to optimize the clarity and relevance of the user journey.
- **Identified** friction points and policy violations in digital interfaces, ensuring a safe and high-quality User Experience.

Content & Digital Experience Management

Maria Bela Esmalteria | Nov 2023 – Dez 2024

- **Conceptualized and executed** the branding project from scratch, defining the visual identity and tone of voice to create a cohesive and attractive brand.
- **Launched and managed** the Instagram profile, developing a follower-centric content strategy that resulted in a **45% increase in engagement**.

Systems Organization & Customer Journey

Abercrombie & Fitch (Dublin, Ireland) | Nov 2012 – Aug 2015

- **Structured** the store layout by applying information architecture and visual hierarchy principles to optimize the customer journey and navigation flow.

EDUCATION

Google UX Design Professional Certificate

Coursera | In Progress

Bachelor's Degree in Design

UTFPR – Federal University of Technology – Paraná | Completed: 2025

RELEVANT PROJECTS

- **Graduation Project (UTFPR):** The Evolution of UX/UI Design in Artificial Intelligence Systems.
- **Project NAILA IoT:** Developed an academic chatbot, focusing on information architecture and conversational flows for an intuitive experience.
- **Google UX Certificate:** Created wireframes, low and high-fidelity prototypes, and conducted user research for mobile and web projects.
