Analysis | Digital Environments | Design

Curitiba, PR, Brasil | +55(41) 99986-2248 | jonasgalembeck@gmail.com | linkedin.com/in/jonasgalembeck

PROFESSIONAL SUMMARY

Graduated in Design, with independent experience in large-scale digital projects, acting mainly with analysis, criteria application, and quality control. My career combines this practical experience with analytical thinking and a background in Design. I have been developing skills in UX and artificial intelligence, expanding this foundation with a perspective focused on information organization, user understanding, and digital solutions. I seek to consolidate this background in a more structured professional role, connecting analysis, technology, and problem-solving.

CORE COMPETENCIES

- Analysis; Quality Control; Criteria Application; Content Evaluation.
- Information Organization; Analytical Thinking; Systems Thinking.
- Design Thinking; Problem Solving; Usability.

PROFESSIONAL EXPERIENCE

Independent Contractor | Digital Projects

Projects in digital environments related to Meta and Google platforms | February 2016 – Present

- Acted as an Ads Moderator (Meta) and Search Moderator (Google), with analysis of ads, content, and search results according to guidelines and technical criteria defined by the platforms.
- Consistent application of evaluation criteria, with quality control and validation of digital content in compliance with established standards.
- Identification of inconsistencies and borderline cases, recording evaluations and classifications according to project criteria.

Brand Representative and Operations Organizer

Abercrombie & Fitch (Dublin, Ireland) | November 2012 – August 2015

- Worked on visual organization and customer flow in a high-volume retail environment.
- Gained experience in a multicultural environment, with daily use of English and resolution of operational situations.
